Reader

I'm totally supportive of DRC accommodations

- Bring me or email me your form ASAP
- Some folks need accommodations for the final only, some may need something for the quizzes: if so, we need to talk SOON!

So where does your grade come from?

- 30% via quiz average (top 6 out of 8 scores)
 - Don't treat them as free skip days or free hangover days!
 - Exceptions of campus emergencies, this should cover emergencies
 - Don't waste them, then have a real emergency!
 - Beware of Kaiju!
- 20% homework/lab scores (all 8)
- There may be 9 quizzes/labs, so beware!
- 50% via final-exam score
- Fudge factor for class/forum participation
Similar to $C+ \rightarrow B-$ or $B+ \rightarrow A-$

You choose if you come to lecture—except for the quizzes.

NOTE: Assigned seats for the final exam

YOUR RESPONSIBILITY

- Do NOT use red ink. This is reserved for the grader.
- Answer EVERY question! Empty answers are worth ZERO points! Even a failing question can give up to 50% points!
- Do not circle multiple answers.
- Check the syllabus for updates!
- Post questions to the forums!
- Check the forums, it may have your answer!
- Grades will be posted! It is YOUR responsibility to verify you have the correct score and credit!

YOUR RESPONSIBILITY

If you need additional help:

Stay during the 2nd section of class. Many times, class is dismissed early for those who understand the content the first time we reviewed it. I will re-review it during the 2nd half of class. Pls stay if you do not understand.

There are MANY resources to help you succeed, please use them.

Keep up with the forums!

QUESTIONS

When you ask a question, it helps if you give me an example of where you are stumped ... Either the process which led you to this point may be incorrect, or you just need a small helpful push in the right direction.

If embarrassed, feel free to email me (no names!), and I'll repost it on the forums.
